

MLS Data Co-op™

MLS Data Without Borders

The MLS Data Co-op™ by CoreLogic® brings you a wealth of information you couldn't access before and marketing opportunities that were once beyond reach.

Access MLS listings from across the nation

Whether you have a client who's relocating or looking for a vacation home, you can tap into the MLS data you need. This isn't the information clients see on public-facing sites, it's the agent-to-agent information you need on the market, listings, neighborhood, and more.

Market your properties across the country

Your MLS has always been the best way to market locally. Now it's much more. It's also a great way to get your listings in front of agents in markets across the country who may have clients relocating to your region or looking for investment properties. Unlike public sites that take you out of the equation and provide no professional benefit, MLS Data Co-op offers MLS confidentiality with your peers in other markets.

MLS SOLUTIONS

Rave Reviews

Why are REALTORS® across the country giving the MLS Data Co-op rave reviews?

- ▶ Brings you easy access to MLS data across the nation
- ▶ Lets you market your properties across the country
- ▶ Gives you all the information you need on a single screen
- ▶ Provides free access to RealAVM™ for fast, accurate property values* (subject to availability)
- ▶ Access local and national listings through a great new map interface
- ▶ Gives you a side-by-side view of foreclosure* and listing data (subject to availability)
- ▶ Shows all listing fields, including agent-only confidential fields
- ▶ Lets you access the most current, most comprehensive data on properties nationwide
- ▶ Works across all popular browsers and platforms – desktop, laptop, and tablets, including Apple® Mac® and iPad™ products
- ▶ Provides a common format for listings across MLSs without sacrificing locally unique data values

A new way to access listings locally and across the nation!

Everything you need on one screen

Find everything you need to know on a single screen, some of the features that may be available are:

- ▶ Community demographics
- ▶ Nearby comparable sales
- ▶ Real estate trends
- ▶ Agent information
- ▶ E-mail listing
- ▶ Drag & drop gadgets
- ▶ Add to favorites
- ▶ And more!
- ▶ Availability may vary by region

The screenshot displays the CoreLogic MarketLinx MLS Data Co-op interface. The main focus is on the property listing for 10308 ROCKY MESA CT, LAS VEGAS, NV 89144. The listing is priced at \$1,999,900. The interface is divided into several sections:

- Property Photos:** Shows a large image of the property.
- MLS Listing Details:** Provides listing information such as Listing# 1114120, List Price \$1,999,900, and property features like 6 Bedrooms, 3 Full Baths, and 5 Partial Baths.
- Property Location:** Includes a map showing the property's location.
- Tax Record Detail:** Shows tax information for the property, including the owner ZENA TRUST and the RealAVM™ value of \$1,848,016.
- Agent Information:** Lists the agent Thomas Love, The Tom Love Group LLC, with contact details.
- Nearby Schools:** Lists nearby schools such as Sig Rogich Middle School and John W. Bonner Elementary Sch.
- Nearby Comparable Sales:** Shows a table of comparable sales with columns for Date, Status, DOM, and Price.

Access to RealAVM property values*

CoreLogic, the leading provider of automated valuation models (AVMs) to the mortgage industry, delivers more than a billion AVM values each month, including lender-quality AVM values to 18 of the top 20 mortgage lenders. As a member benefit, MLS Data Co-op brings the CoreLogic patented AVM process to you through free access to RealAVM, an AVM available exclusively to real estate agents and brokers. Fast, accurate and available on properties nationwide, RealAVM lets you preview the property values lenders are likely to see when evaluating buyers' loan applications. *Subject to availability

The screenshot shows the RealAVM report interface. The top section displays the property address: 9201 QUAIL RIDGE DR, LAS VEGAS, NV 89134-8927. Below this, a summary section indicates a successful valuation with an estimated value of \$309,399 as of 12/31/2010. The report also includes a table for subject property information and a sales history table.

Property Address:	9201 QUAIL RIDGE DR, LAS VEGAS, NV 89134-8927

Prior Sale Price:	\$285,000
Prior Rec / Sale Date:	/ 05/00/1994
Prior Sale Type:	F
Prior 1st Mtg Amount:	\$228,000
Prior 1st Mtg Type:	C

Great new map interface

Use the MLS Data Co-op to perform national or local searches. Either way, you get access to a new map interface that delivers a goldmine of property information unavailable through your MLS platform. The revolutionary interface unveiled in the MLS Data Co-op is the precursor to what's coming up in our new MLS system, Fusion™.

Access the most accurate and complete property information available

No one has more property data than CoreLogic. Its massive database is updated daily and covers 97% of all U.S. properties. Access best in class property information including tax and assessment, property characteristics, sales history, plus foreclosure* and REO data* – all complemented with current trends and market intelligence. *Subject to availability

Side-by-side view of foreclosure* and listing data

See which properties are in the foreclosure process, locally and in other markets along with listings in all statuses. The MLS Data Co-op makes it easy to evaluate properties in the three foreclosure stages and see foreclosure activity around a listing or within a neighborhood. By combining all of this information in one map, you will see a true 360 degree view of the entire market. *Subject to availability.

Gives you access to the detailed data needed to service your clients

Because the MLS Data Co-op is an agent-to-agent solution, it gives you access to more listing fields than you'll find anywhere else and far more data than your clients can learn from public-facing sites, including all statuses and agent-only confidential fields not available on IDX-based web sites. The residential listing record provides more than 250 data fields, giving you the key property details you have come to expect from your MLS.

Unique, yet consistent, listing formats

A visit to another MLS can feel like a trip to another country. The MLS Data Co-op eliminates confusion by providing a common, standards-based listing format for all MLSs. Whether you are looking at a listing in Dallas or Palm Beach, you'll see the same, easy-to-understand listing structure. But the MLS Data Co-op also retains MLS-specific data values that are unique and valuable for marketing properties in each MLS area. With the MLS Data Co-op, you get the best of both worlds, a standard nationwide listing format that includes attributes unique to each MLS.

Works across all popular browsers and platforms

The MLS Data Co-op gathers all data together into a single interface—accessible through your home MLS—and makes it available on all popular web browsers, operating systems and platforms. Tap into the MLS Data Co-op from your PC- or Mac-based desktop, laptop, or tablet, including Apple® Mac® and iPad™ products.

PLEASE CONTACT YOUR MLS FOR MORE INFORMATION.
