

## **Supra Settings**

Have you checked your lockbox settings lately? Did you know that lockbox access hours can be changed and do not adjust for daylight savings time?

Yours may be currently set 1 hour later due to daylight savings time, during Daylight Savings Time (springing forward) if you want your access hours to be 8am - 9pm you will need to set it up as 7am - 8pm. To adjust your access schedule, you will need your eKEY and the Supra lockbox you want to change.

- 1. Open the Supra eKEY app on your phone**
- 2. Tap on the MY KEYBOXES icon**
- 3. Tap on the Keybox serial number you wish to change settings on**
- 4. Tap on the PROGRAM KEYBOX heading**
- 5. Tap on Keybox access hours**
- 6. When finished editing tap the PROGRAM button**
- 7. Enter the 4-digit shackle code**
- 8. Press up on the bottom of the lockbox to power the lockbox on**
- 9. Wait for the message Success to appear. Your lockbox has now been reprogrammed.**
